Sales Specification for Operators
Tx-Holster™ & Clipchain™ for all
Series €5™, €8™, S5™, S8™, S10™ Transmitters

The **COMMANDER™ Tx-Holster™** is a purpose designed High Quality English Saddle Leather Holster system complete with waist belt in which to store the operator's push button transmitter. The **Tx-Holster™** is of a single size design and is constructed from high quality traditional stitched English Saddle leather, additionally riveted for strength and maximum durability, all being manufactured in England to precise dimensions by an English Saddle Manufacturer.

The waist belt incorporates easy to operate durable snap-in buckle system with a wide range waist size and is fully adjustable. However in the event a longer length is required this can be supplied at no extra charge at order stage.

A **Clipchain™** is also included to connect the hand held transmitter to the **Tx-Holster™** and is of sufficient length to enable ease of use by the operator while at the same time limits the distance the transmitter can fall if inadvertently dropped by the operator thus preventing ground contact and possible damage. A **Clipchain™** connecting link will pull apart if in an emergency undue tension occurs on the chain. The system can be used by left handed or right handed operators, for this purpose, two **Clipchain™** anchorages are included for left or right hand use.

The **Tx-Holster™** has an impressed **COMMANDER™** logo. The **Tx-Holster™ & SnuGlove™** protective transmitter cover, make a good combination for ease of use by the operator and affording excellent protection for owner assets. The transmitter can be easily disconnected from the **Clipchain™** by the provisioned traditional type dog clip to facilitate charging cycles.
